## 30 facts you NEED to know: Your Covid Cribsheet

You asked for it, so we made it. A collection of all the arguments you'll ever need.

Kit Knightly

We get a lot of e-mails and private messages along these lines “do you have a source for X?” or “can you point me to mask studies?” or “I know I saw a graph for mortality, but I can’t find it anymore”. And we understand, it’s been a long 18 months, and there are so many statistics and numbers to try and keep straight in your head.

So, to deal with all these requests, we decided to make a bullet-pointed and sourced list for all the key points. A one-stop-shop.

Here are key facts and sources about the alleged “pandemic”, that will help you get a grasp on what has happened to the world since January 2020, and help you enlighten any of your friends

**“Covid deaths” – Lockdowns – PCR Tests – “asymptomatic infection” – Ventilators – Masks – Vaccines – Deception & Foreknowledge**

\*

## **PART I: “COVID DEATHS” & MORTALITY**

### **1. The survival rate of “Covid” is over 99%.**

Government medical experts went out of their way to underline, from the beginning of the pandemic, that *the vast majority of the population are not in any danger from Covid.*

Almost all studies on the infection-fatality ratio (IFR) of Covid have **returned results between 0.04% and 0.5%**. Meaning Covid's survival rate is at least 99.5%.

\*

**2. There has been NO unusual excess mortality.** The press has called 2020 the UK's "deadliest year since world war two", but this is misleading because it ignores the massive increase in the population since that time. A more reasonable statistical measure of mortality is Age-Standardised Mortality Rate (ASMR):

By this measure, 2020 isn't even the worst year for mortality since 2000, In fact since 1943 only 9 years have been better than 2020.

Similarly, in the US the ASMR for 2020 is only at 2004 levels:

For a detailed breakdown of how Covid affected mortality across Western Europe and the US click [here](#). What increases in mortality we have seen could be attributable to non-Covid causes [facts **7**, **9** & **19**].

\*

### 3. “Covid death” counts are artificially inflated.

Countries around the globe have been defining a “Covid death”

as a “*death by any cause within 28/30/60 days of a positive test*”.

Healthcare officials from Italy, Germany, the UK, US, Northern Ireland and others **have all admitted to this practice:**

Removing any distinction between dying *of* Covid, and dying of something else *after testing positive for Covid* will naturally lead to over-counting of “Covid deaths”. British pathologist Dr John Lee was warning of this “**substantial over-estimate**” as early as last spring. Other **mainstream sources** have **reported it**, too.

Considering the huge percentage of “asymptomatic” Covid infections [14], the well-known prevalence of serious comorbidities [fact 4] and the potential for false-positive tests [fact 18], this renders the Covid death numbers an extremely unreliable statistic.

\*

**4. The vast majority of covid deaths have serious comorbidities.** In March 2020, the Italian government published statistics showing 99.2% of their “Covid deaths” **had at least one serious comorbidity**.

These included cancer, heart disease, dementia, Alzheimer’s, kidney failure and diabetes (among others). Over 50% of them had **three or more** serious pre-existing conditions.

This pattern has held up in all other countries over the course of the “pandemic”. An October 2020 FOIA request to the UK’s ONS revealed **less than 10% of the official “Covid death” count at that time** had Covid as the sole cause of death.

\*

**5. Average age of “Covid death” is greater than the average life expectancy.** The average age of a “Covid

death” in the UK is **82.5 years**. In Italy it’s 86. Germany, 83. Switzerland, 86. Canada, 86. The US, 78, Australia, 82.

In almost all cases the **median age of a “Covid death”** *is higher than the national life expectancy.*

As such, for most of the world, the “pandemic” has had little-to-no impact on life expectancy. Contrast this with the Spanish flu, which saw a 28% drop in life expectancy in the US in just over a year. [**source**]

\*

**6. Covid mortality exactly mirrors the natural mortality curve. Statistical studies** from the UK **and India** have shown that the curve for “Covid death” follows the curve for expected mortality almost exactly:

# Chances of dying from coronavirus annual risk

Risk of dying each year by age (GB)

The risk of death “from Covid” follows, almost exactly, your **background risk of death in general.**

The small increase for some of the older age groups can be accounted for by other factors.[facts **7, 9 & 19**]

\*

**7. There has been a massive increase in the use of “unlawful” DNRs.** Watchdogs and government agencies

have reported huge increases in the use of Do Not Resuscitate Orders (DNRs) over the last twenty months.

In the US, hospitals considered **“universal DNRs”** for any patient who tested positive for Covid, and whistleblowing nurses **have admitted the DNR system was abused** in New York.

In the UK there was an **“unprecedented” rise** in **“illegal” DNRs** for disabled people, GP surgeries sent out letters to non-terminal patients recommending they sign DNR orders, whilst other doctors signed **“blanket DNRs”** for **entire nursing homes**.

A **study done by Sheffield Univerisity** found over one-third of all “suspected” Covid patients had a DNR attached to their file within 24 hours of hospital admission.

Blanket use of coerced or illegal DNR orders could account for any increases in mortality in 2020/21.[Facts **2 & 6**]

\*

## PART II: LOCKDOWNS

### **8. Lockdowns do not prevent the spread of disease.**

There is little to no evidence lockdowns have any impact on

limiting “Covid deaths”. If you compare regions that locked down to **regions that did not**, you can see no pattern at all.

*“Covid deaths” in Florida (no lockdown) vs California (lockdown)*

*“Covid deaths” in Sweden (no lockdown) vs UK (lockdown)*

\*

**9. Lockdowns kill people.** There is strong evidence that lockdowns – through social, economic and other public health damage – are **deadlier than the “virus”**.

Dr David Nabarro, World Health Organization special envoy for Covid-19 described lockdowns as a “global catastrophe” in

October 2020:

*We in the World Health Organization do not advocate lockdowns as the primary means of control of the virus[...] it seems we may have a doubling of world poverty by next year. We may well have at least a doubling of child malnutrition [...] This is a terrible, ghastly global catastrophe.”*

A UN report from April 2020 warned of **100,000s of children being killed** by the economic impact of lockdowns, while **tens of millions more** face possible poverty and famine.

**Unemployment**, poverty, **suicide**, alcoholism, drug use and other social/mental health crises are spiking all over the world. While missed and **delayed surgeries** and **screenings** are going to see increased mortality from heart disease, cancer et al. in the near future.

The impact of lockdown would account for the small increases in excess mortality [Facts **2** & **6**]

\*

## **10. Hospitals were never unusually over-burdened.**

the main argument used to defend lockdowns is that “flattening the curve” would prevent a rapid influx of cases and protect healthcare systems from collapse. But most healthcare systems were never close to collapse at all.

In March 2020 it was reported that hospitals in Spain and Italy were over-flowing with patients, but this happens every flu season. In 2017 Spanish hospitals **were at 200% capacity**, and 2015 **saw patients sleeping in corridors**. A paper JAMA paper from March 2020 found that Italian hospitals **“typically run at 85-90% capacity in the winter months”**.

In the UK, the NHS is **regularly stretched to breaking point over the winter**.

As part of their Covid policy, **the NHS announced in Spring of 2020** that they would be *“re-organizing hospital capacity in new ways to treat Covid and non-Covid patients separately”* and that *“as result hospitals will experience capacity pressures at lower overall occupancy rates than would previously have been the case.”*

This means ***they removed thousands of beds***. During an alleged deadly pandemic, they reduced the maximum occupancy of

hospitals. Despite this, the NHS never felt pressure beyond your typical flu season, and at times actually had **4x more empty beds than normal**.

In both the UK and US millions were spent on **temporary emergency hospitals** that **were never used**.

\*

## PART III: PCR TESTS

### **11. PCR tests were not designed to diagnose illness.**

The Reverse-Transcriptase Polymerase Chain Reaction (RT-PCR) test is described in the media as the “gold standard” for Covid diagnosis. But the Nobel Prize-winning inventor of the process never intended it to be used as a diagnostic tool, and **said so publicly**:

*PCR is just a process that allows you to make a whole lot of something out of something. It doesn't tell you that you are sick, or that the thing that you ended up with was going to hurt you or anything like that.”*

\*

**12. PCR Tests have a history of being inaccurate and unreliable.** The “gold standard” PCR tests for Covid are known to produce a lot of false-positive results, by reacting to DNA material that is not specific to Sars-Cov-2.

A Chinese study found the same patient could get two different results **from the same test on the same day**. In Germany, tests are **known to have reacted to common cold viruses**. A 2006 study found **PCR tests for one virus responded to other viruses too**. In 2007, a reliance on PCR tests resulted in an “outbreak” of Whooping Cough **that never actually existed**. Some tests in the US even reacted **to the negative control sample**.

The **late President of Tanzania**, John Magufuli, submitted samples goat, pawpaw and motor oil for PCR testing, **all came back positive for the virus**.

As early as February of 2020 experts were admitting the test was unreliable. Dr Wang Cheng, president of the Chinese Academy of Medical Sciences told Chinese state television “*The accuracy of the tests is only 30-50%*”. The Australian government’s **own website claimed** “*There is limited evidence available to assess the accuracy and clinical utility of available COVID-19 tests.*”

And a **Portuguese court ruled that PCR tests were “unreliable”** and should not be used for diagnosis.

You can read detailed breakdowns of the failings of PCR tests **here, here and here.**

\*

**13. The CT values of the PCR tests are too high.** PCR tests are run in cycles, the number of cycles you use to get your result is known as your “cycle threshold” or CT value. **Kary Mullis said:** *“If you have to go more than 40 cycles[...]*there is something seriously wrong with your PCR.*”*

The **MIQE PCR guidelines** agree, stating: *“[CT] values higher than 40 are suspect because of the implied low efficiency and generally should not be reported,”* Dr Fauci himself even **admitted anything over 35 cycles is almost never culturable.**

Dr Juliet Morrison, virologist at the University of California, Riverside, **told the New York Times:** *Any test with a cycle threshold above 35 is too sensitive...I’m shocked that people would think that 40 [cycles] could represent a positive...A more reasonable cutoff would be 30 to 35”.*

In the same article Dr Michael Mina, of the Harvard School of Public Health, said the limit should be 30, and the author goes on

to point out that reducing the CT from 40 to 30 would have reduced “covid cases” in some states **by as much as 90%**.

The **CDC’s own data suggests** no sample over 33 cycles could be cultured, and Germany’s Robert Koch Institute says **nothing over 30 cycles is likely to be infectious**.

Despite this, it is known almost all the labs in the US are running their tests **at least 37 cycles and sometimes as high as 45**. The NHS **“standard operating procedure” for PCR tests** rules set the limit at 40 cycles.

Based on what we know about the CT values, the majority of PCR test results are at best questionable.

\*

**14. The World Health Organization (Twice) Admitted PCR tests produced false positives.** In December 2020 WHO put out a **briefing memo on the PCR process** instructing labs to be wary of high CT values causing false positive results:

*when specimens return a high Ct value, it means that many cycles were required to detect virus. In*

*some circumstances, the distinction between background noise and actual presence of the target virus is difficult to ascertain.*

Then, in January 2021, **the WHO released another memo**, this time warning that “asymptomatic” positive PCR tests should be re-tested because they might be false positives:

*Where test results do not correspond with the clinical presentation, a new specimen should be taken and retested using the same or different NAT technology.*

\*

**15. The scientific basis for Covid tests is questionable.** The genome of the Sars-Cov-2 virus was supposedly sequenced by Chinese scientists in December 2019, then published on January 10th 2020. Less than two weeks later,

German virologists (Christian Drosten et al.) had allegedly used the genome to create assays for PCR tests.

They wrote a paper, *Detection of 2019 novel coronavirus (2019-nCoV) by real-time RT-PCR*, which was submitted for publication on January 21st 2020, and then accepted on January 22nd. Meaning the paper was **allegedly “peer-reviewed” in less than 24 hours**. A process that typically takes weeks.

Since then, a consortium of over forty life scientists has petitioned for the withdrawal of the paper, writing a lengthy report detailing **10 major errors in the paper’s methodology**.

They have also requested the release of the journal’s peer-review report, to prove the paper really did pass through the peer-review process. The journal has yet to comply.

The Corman-Drosten assays are the root of every Covid PCR test in the world. If the paper is questionable, every PCR test is also questionable.

\*

## PART IV: “ASYMPTOMATIC INFECTION”

**16. The majority of Covid infections are “asymptomatic”.** From as early as March 2020, studies done in Italy were suggesting **50-75% of positive Covid tests had no symptoms.** Another UK study from August 2020 found as **much as 86% of “Covid patients”** *experienced no viral symptoms at all.*

It is literally impossible to tell the difference between an “asymptomatic case” and a false-positive test result.

\*

**17. There is very little evidence supporting the alleged danger of “asymptomatic transmission”.** In June 2020, Dr Maria Van Kerkhove, head of the WHO’s emerging diseases and zoonosis unit, **said:**

*From the data we have, it still seems to be rare that an asymptomatic person actually transmits onward to a secondary individual,”*

A meta-analysis of Covid studies, published by Journal of the American Medical Association (JAMA) in December 2020,

found that asymptomatic carriers had a **less than 1% chance of infecting people within their household**. Another study, done on **influenza in 2009**, found:

*...limited evidence to suggest the importance of [asymptomatic] transmission. The role of asymptomatic or presymptomatic influenza-infected individuals in disease transmission may have been overestimated...”*

Given the known flaws of the PCR tests, many “asymptomatic cases” may be false positives.[**fact 14**]

\*

## **PART V: VENTILATORS**

**18. Ventilation is NOT a treatment for respiratory viruses.** Mechanical ventilation is not, and never has been, recommended treatment for respiratory infection of any kind. In

the early days of the pandemic, many doctors came forward questioning the use of ventilators to treat “Covid”.

Writing in The Spectator, Dr Matt Strauss stated:

*Ventilators do not cure any disease. They can fill your lungs with air when you find yourself unable to do so yourself. They are associated with lung diseases in the public’s consciousness, but this is not in fact their most common or most appropriate application.*

German Pulmonologist Dr Thomas Voshaar, chairman of Association of Pneumatological Clinics **said:**

*When we read the first studies and reports from China and Italy, we immediately asked ourselves why intubation was so common there. **This***

*contradicted our clinical experience with viral pneumonia.*

Despite this, the **WHO, CDC, ECDC** and **NHS** all “recommended” Covid patients be ventilated instead of using non-invasive methods.

This was **not a medical policy designed to best treat the patients**, but rather to reduce the hypothetical spread of Covid by preventing patients from exhaling aerosol droplets.

\*

**19. Ventilators killed people.** Putting someone on a ventilator who is suffering from influenza, pneumonia, chronic obstructive pulmonary disease, or any other condition which restricts breathing or affects the lungs, will *not* alleviate any of those symptoms. In fact, it will almost certainly make it worse, and will kill many of them.

Intubation tubes are a source of potential a infection known as “ventilator-associated pneumonia”, which studies show affects

**up to 28% of all people put on ventilators, and kills 20-55% of those infected.**

Mechanical ventilation is also damaging to the physical structure of the lungs, resulting in **“ventilator-induced lung injury”**, which can dramatically impact quality of life, and even result in death.

Experts estimate **40-50% of ventilated patients die, regardless of their disease.** Around the world, **between 66 and 86% of all “Covid patients”** put on ventilators died.

According to the “undercover nurse”, ventilators were being used so improperly in New York, they were destroying patients’ lungs:

This policy was negligence at best, and potentially deliberate murder at worst. This misuse of ventilators could account for any increase in mortality in 2020/21 [Facts **2** & **6**]

\*

## PART VI: MASKS

**20. Masks don't work.** At least a dozen scientific studies have shown that masks do nothing to stop the spread of respiratory viruses.

One meta-analysis **published by the CDC in May 2020** found “*no significant reduction in influenza transmission with the use of face masks*”.

Another **study** with over 8000 subjects found masks “*did not seem to be effective against laboratory-confirmed viral respiratory infections nor against clinical respiratory infection.*”

There are literally too many to quote them all, but you can read them: [**1**][**2**][**3**][**4**][**5**][**6**][**7**][**8**][**9**][**10**] Or read a summary by SPR **here**.

While some studies have been done claiming to show mask do work for Covid, they are all seriously flawed. One relied on **self-**

**reported surveys as data.** Another was so badly designed **a panel of experts demand it be withdrawn.** A third was withdrawn after its predictions **proved entirely incorrect.**

The WHO commissioned their own meta-analysis in the Lancet, but that study looked only at N95 masks and only in hospitals. [For full run down on the bad data in this study click **here.**]

Aside from scientific evidence, there's plenty of real-world evidence that masks do nothing to halt the spread of disease.

For example, North Dakota and South Dakota had **near-identical case figures**, despite one having a mask-mandate and the other not:

CASES PER 100K POPULATION IN NORTH DAKOTA AND SOUTH DAKOTA

In Kansas, counties without mask mandates actually **had fewer Covid “cases”** than counties *with* mask mandates. And despite masks being very common in Japan, they had their **worst flu outbreak in decades in 2019.**

\*

**21. Masks are bad for your health.** Wearing a mask for long periods, wearing the same mask more than once, and other aspects of cloth masks can be bad for your health. A long study on the detrimental effects of mask-wearing was recently published by the *International Journal of Environmental Research and Public Health*

Dr. James Meehan **reported in August 2020** he was seeing increases in bacterial pneumonia, fungal infections, facial rashes

.

Masks are also known to contain **plastic microfibers**, which damage the lungs when inhaled and may be potentially carcinogenic.

Children wearing masks encourages mouth-breathing, which **results in facial deformities.**

People around the world have **passed out due to CO2 poisoning** while wearing their masks, and some children in

China even **suffered sudden cardiac arrest.**

\*

**22. Masks are bad for the planet. Millions upon millions of disposable masks** have been used per month for over a year. A report from the UN found the Covid19 pandemic will likely result in plastic waste **more than doubling in the next few years.**, and the vast majority of that is face masks.

The report goes on to warn these masks (and other medical waste) will clog sewage and irrigation systems, which will have knock on effects on public health, irrigation and agriculture.

A study from the **University of Swansea** found *“heavy metals and plastic fibres were released when throw-away masks were submerged in water.”* These materials are toxic to both people and wildlife.

\*

## PART VII: VACCINES

**23. Covid “vaccines” are totally unprecedented.**

Before 2020 no successful vaccine against a human

coronavirus **had ever been developed**. Since then we have allegedly *made 20 of them in 18 months*.

Scientists have been trying to develop a SARS and MERS vaccine for years with little success. Some of the **failed SARS vaccines actually caused hypersensitivity** to the SARS virus. Meaning that vaccinated mice could potentially get the disease *more severely* than unvaccinated mice. Another attempt **caused liver damage in ferrets**.

While traditional vaccines work by exposing the body to a weakened strain of the microorganism responsible for causing the disease, these new Covid vaccines are **mRNA vaccines**.

mRNA (messenger ribonucleic acid) vaccines theoretically work by injecting viral mRNA into the body, where it replicates inside your cells and encourages your body to recognise, and make antigens for, the “spike proteins” of the virus. They have been the **subject of research** since the 1990s, but before 2020 no mRNA vaccine was ever approved for use.

\*

**24. Vaccines do not confer immunity or prevent transmission.** It is readily admitted that Covid “vaccines” do **not** confer immunity from infection and do **not** prevent you from

passing the disease onto others. Indeed, an **article in the British Medical Journal** highlighted that the vaccine studies were not designed to even try and assess if the “vaccines” limited transmission.

The vaccine manufacturers themselves, upon releasing the untested mRNA gene therapies, were quite clear their product’s “efficacy” was based on **“reducing the severity of symptoms”**.

\*

**25. The vaccines were rushed and have unknown longterm effects.** Vaccine development is a slow, laborious process. Usually, from development through testing and finally being approved for public use **takes many years**. The various vaccines for Covid were all developed and approved in less than a year. Obviously there can be no long-term safety data on chemicals which are less than a year old.

Pfizer even admit this is true in the **leaked supply contract** between the pharmaceutical giant, and the government of Albania:

*the long-term effects and efficacy of the Vaccine are not currently known and that there may be adverse*

*effects of the Vaccine that are not currently known*

Further, none of the vaccines have been **subject to proper trials**. Many of them skipped early-stage trials entirely, and the late-stage human trials have either not been peer-reviewed, have not released their data, **will not finish until 2023** or were **abandoned after “severe adverse effects”**.

\*

**26. Vaccine manufacturers have been granted legal indemnity should they cause harm.** The USA’s Public Readiness and Emergency Preparedness Act (PREP) **grants immunity until at least 2024**.

The EU’s product licensing law **does the same**, and there are reports of **confidential liability clauses** in the contracts the EU signed with vaccine manufacturers.

The UK went even further, granting **permanent legal indemnity** to the government, and any employees thereof, for any harm done when a patient is being treated for Covid19 or “suspected Covid19”.

Again, the leaked Albanian contract suggests that Pfizer, at least, made this indemnity a standard demand of supplying Covid vaccines:

*Purchaser hereby agrees to indemnify, defend and hold harmless Pfizer [...] from and against any and all suits, claims, actions, demands, losses, damages, liabilities, settlements, penalties, fines, costs and expenses*

\*

## PART VIII: DECEPTION & FOREKNOWLEDGE

**27. The EU was preparing “vaccine passports” at least a YEAR before the pandemic began.** Proposed COVID countermeasures, presented to the public as improvised emergency measures, have **existed since before the emergence of the disease.**

Two EU documents published in 2018, the *“2018 State of Vaccine Confidence”* and a technical report titled *“Designing and implementing an immunisation information system”* discussed the plausibility of an EU-wide vaccination monitoring system.

These documents were combined into the 2019 “Vaccination Roadmap”, which (among other things) established a “feasibility study” on vaccine passports to begin in 2019 and finish in 2021:

**ROADMAP FOR THE IMPLEMENTATION OF ACTIONS BY THE EUROPEAN COMMISSION AND THE COUNCIL RECOMMENDATION ON STRENGTHENING PREVENTABLE DISEASES**

This report’s **final conclusions** were released to the public in September 2019, just a month before Event 201 (below).

\*

**28. A “training exercise” predicted the pandemic just weeks before it started.** In October 2019 the **World Economic Forum and Johns Hopkins University held Event 201**. This was a training exercise based on a zoonotic coronavirus starting a worldwide pandemic. The exercise was sponsored by the Bill and Melinda Gates Foundation and GAVI the vaccine alliance.

The exercise published its findings and recommendations in November 2019 as a **“call to action”**. One month later, China recorded their first case of “Covid”.

\*

**29. Since the beginning of 2020, the Flu has “disappeared”.** In the United States, since February 2020, influenza cases have allegedly **dropped by over 98%**.

## U.S. Flu Positivity Rates by Week

Since March 2020 fewer people have been tested for influenza, but that is not the reason for the low positivity rates. The percentage of samples that have tested positive (the positivity rate) has

It's not just the US either, globally flu has apparently almost **completely disappeared**.

Meanwhile, a new disease called "Covid", which has identical symptoms and a similar mortality rate to influenza, is apparently affecting all the people normally affected by the flu.

\*

**30. The elite have made fortunes during the pandemic.** Since the beginning of lockdown the wealthiest people have become significantly wealthier. Forbes reported that 40 new billionaires have been created **“fighting the coronavirus”**, with **9 of them being vaccine manufacturers.**

Business Insider reported that **“billionaires saw their net worth increase by half a trillion dollars”** by October 2020.

Clearly that number will be even bigger by now.

\*

These are the vital facts of the pandemic, presented here as a resource to help formulate and support your arguments with friends or strangers. Thanks to all the researchers who have collated and collected this information over the last twenty months, especially **Swiss Policy Research.**

Would be great if this was updated from time to time.

**Mark Oshinskie**  Oct 19, 2021 1:04 PM

This is a great summary. Thanks!

**Amstel Heineken**  Oct 19, 2021 5:28 AM

Well, guys, please add the most important part of the lie...

As from February 2020 there are two WHO codes for “covid-19 deaths” – U07.1 and U07.2. And MOST of the so-called “covid-19 deaths” are WITHOUT ANY VIRUS.

E.g. according to official information for the Philippines in 2020, among the so-called “deaths from covid-19” (codes U07.1 and U07.2 together), the SARS-CoV-2 virus WAS NOT IDENTIFIED AT ALL in TWO THIRDS OF THE DEAD (the code for reporting those dead is U07.2). For those who don’t know what this code U07.2 means – it means that if a person was working indoors, then had only some fever, fatigue and headache and died, it is mandatory for the doctor to report that this person died from covid-19, even if 10 tests didn’t find any SARS-CoV-2 virus.

Just a few more words:

in the first link see the Philippines covid-19 deaths data by WHO codes in Fig. 1.

In the second link the WHO code definitions concern “confirmed cases” (for code U07.1) and “suspected + probable cases” (for code U07.2).

A local broadcaster has frequently stated that we, the people, have not faced any problem that was not created by government in the first place. Covid is a perfect example of a problem created by government which they then made worse with their cures.

Not created – made up. There is no ‘Covid problem’. Just age old viruses doing their usual thing

Have you read that article properly. Does it really debunk these claims or does it takes things out of context and make strawman arguments

These type of 'fact-checks' almost never actually debunk. They just assert a contrary statement without data or they use weasel words to imply a debunk where there isn't one. They exist purely to be linked to by people who trust the official narrative and never read.

The 30 points article cites official sources for every claim. So, it can only be 'debunked' by lies or sleight of hand.

 Reply

**Rob**  Oct 3, 2021 11:19 PM

Item #2 of the list “...**NO unusual excess mortality.**” seems to be contradicted by the charts you included as support??? The UK and US charts both show surges for 2020. I was able to get age specific mortality rates from the CDC dataset you linked as your source. ....2020 was biggest consecutive year surge in mortality rate in the US since 1918 for all age cohorts 15 years and older.

**Age Group %Change in mortality rate from 2019**

1 to 4 **-3%**

5 to 14 **2%**

15 – 24 **20%**

25 – 34 **24%**

35 – 44 **24%**

45 – 54 **20%**

55 – 64 **17%**

65 – 74 **17%**

75 – 84 **15%**

>85 **14%**

All ages **18%**

Formula: %Change = ((Age Specific Rate 2020)/(Age Specific Rate 2019) – 1)

<https://www.cdc.gov/nchs/nvss/vsrr/mortality-dashboard.htm#>

BTW: I found SAM’s “List” rebuttal pretty credible (but diminished by trollish tone)

Honestly, the statement (capitalized, no less) that there is “NO” excess mortality when the graph literally shows a rise to 2004-era levels, is disingenuous and makes it easy for the deboonkers to shoot down the whole thing, since the statement is so obviously contradicted by your own data, and in such close proximity to the beginning of the article.

It makes it too easy for people to mentally “check out” before the article picks up steam. Which is a real shame, since it’s a great compilation.

Please revise it to at least say “little”, or “minimal”, or something along those lines. It’s such low-hanging fruit.

The discussion of the UK death statistics is not correct. The ONS data shows that every year from 2009 to 2019 had lower deaths than 2020, which is 11 years not 9.

Statisticians might not accept this, but 2019 had a significantly lower death rate in this period and so it might be argued there were more very ill people dying in 2020, even without Covid. Averaging 2019 and 2020 gives a death rate of 984.25 per 100,000. Then average the years 2009 to 2018 and the rate is 974.5. This means that the increase in deaths was only about 10 per 100,000 – not a pandemic by any definition

You missed something, Kit.

### SYMPTOMATIC TRANSMISSION

The astonishing truth is that there is zero (what we used to call) “scientific evidence” that COVID19 (or any other flu-like illness) is even person-to-person transmissible.

No direct evidence of person-to-person transmission of the virus (if this is what is causing this illness) has been demonstrated experimentally.

Such an experiment would be EASY to set up and carry out, given the authority and funds to do so.

Seeing that the world has been WRECKED by the response to this assumed contagion one might have expected scientists to check out whether the assumption was true or false.

Obviously no grants for that.

Between November 1918 and April 1919 exactly such experiments were carried out under the authority of the U.S. Surgeon General. 62 Imprisoned sailors volunteered to be guinea pigs in exchange for being released from their sentences. They were brought into contact with hospitalised patients suffering and dying from the Spanish Flu.

These sailors endured 4 different procedures, including drinking “shots” of the warm spit of the sick and lying nose-to-nose with patients, taking deep breaths and holding their breath after inhaling while the patient was coughing ,, etc. (details are recorded in “The Invisible Rainbow”, Firstenberg, Ch. 8 and “Virus Mania”, Englebrecht et al, Ch.7 ... the original documentary evidence was taken out of the US Surgeon General’s Report 1919 some time during the autumn of 2020 ... obviously the link to this source was being passed around too often for comfort)

NOT ONE SAILOR GOT SICK, much to the surprise of the doctors overseeing the investigation.

That was what we call real science ... observations of the real world in a controlled environment.

It is sensible to believe that the necessary basic scientific investigation into COVID19 was never carried out because those who know understand that such ILLNESSES are NOT CONTAGIOUS.

We have been lied to about everything regarding this pandemic. Neither is there any real scientific evidence that a pathogenic virus is the cause of this illness. The entire story is founded on unproven assumption, bullshit extrapolations carried out by computer models and tests which are not tests.

Those running the scam know all this. The fact some of us understand the false reality they have conjured up doesn’t worry them. If, on the other hand, everyone knew it, that would terrify them sh\*tless but, hey, minions take the money and lie

through their teeth. The masses would rather obey so they can think themselves virtuous and leave the thinking to others.

The people who wrote the Book of Revelations obviously knew what we're like.

P.S. Here is a link to the response from Public Health England to my FOI request for scientific evidence demonstrating that COVID19 is person-to-person transmissible:

<https://www.whatdotheyknow.com/request/724837/response/1738418/attach/html/2/2729%20FOI%20Evidence%20regarding%20Covid%2019%20person%20to%20person%20transmissibility.pdf.html>

The key lines:

*Please could you forward any information you have relating to experimental evidence demonstrating that COVID-19 is person-to-person transmissible.*

PHE can confirm it does not hold information in the way specified by your request.

The study you mentioned can (and should!) be reviewed by all. I share it every chance I get. It is from the August 2, 2019 edition of the the *Journal of the American Medical Association* and a scan can be downloaded here:

<http://chironreturn.org/documents/jama-1919.pdf>

The study's author is **Dr. Milton J. Rosenau**. Rosenau went on to help found what "*ultimately evolved into Harvard School of Public Health.*"

Read about how Rosenau failed utterly and completely to prove human-to-human transmission exists, and then immediately claimed “**no doubt**” that human-to-human transmission exists. This is what passed for science in 1919. This is still what passes for science a century later.

Very good read, very informative info, you really shed the light on the truth! Thank you so very much for putting this info together! Have you folks collaborated at all with ASHRAE? ASHRAE put together an Epidemic Task force which hasn't had one or its been a very, very long time. Either way, the big focus is IAQ, (Indoor Air Quality) and how to prevent / cut down, transmission via indoor air. I found the comments on respirators & intubating folks in the hospital, hit the nail on the head. If Particles / aerosols in a bldg with less than stellar air quality are present, its a no brainer how ANY virus could spread like wildfire. Alot of companies & folks starting manufacturing products to attempt to help prevent transmission ie; IR, hepa filters etc. Most of those products weren't/arent helpful at all and in some cases, are harmful. The big picture / take away, is indoor air quality. For years we've been battling water, soil, air pollution, etc., though little if anything has been done raising the bar on indoor air quality standards, whether residential, commercial, industrial, institutional etc. Residential wise we have, or can have control over, though we dont when it comes to any public or private bldgs we enter. Hence the reason most of the outbreaks seen are usually the result of being in a crowded or indoor facility with less then stellar air flow and where we may be spending long periods of time. ASHRAE is working on changing / updating the standards though its not a quick fix and may be awhile before standards change, are made mandatory and put in place. It will also be very expensive for companies and facilities to upgrade their mechanical systems to improve the air flow within their bldgs. Preventative maintenance is key

for preventing illness. Whether it be our bodies, maintaining/improving our immune system or the IAQ of our homes.

So, it’s obvious that they planned to cull and enslave the whole human race!

IMHO there is no “democratic solution” for this unprecedented dire situation that we as Human race are facing. We need to be realistic and have to face the reality.

1- Governments have literally been maiming and killing and enslaving people for 18 months. Everything has been intensifying right now!

2- Many well-informed People have been forced to make a hardest, toughest choice in their life. Taking the known dangerous jobs and put theirs and their family lives literally in Russian roulette, or defying to be themselves but loosing everything i.e jobs, careers, their livelihood... and their children will have no more schooling as well! Many have been very decisively brave in choosing the latter... These people cannot afford to stay “calm” and “peaceful” for a “democratic process”.

Set aside the reality above. One must ask a crucial question:

WHY have Governments been forcing the dangerous gene-editing jabs into every Government employees?": Namely school teachers, bureaucrats, nurses, doctors, and particularly cops and soldiers? Do THEY really want to maim and kill ALL their cat's-paws ? Of course NOT!

Then what is the real purpose of forcing the gene editing jabs onto people, especially their cat's-paws ? BEAR IN MIND the fact that NOT EVERY VIAL IS THE SAME!

-Has anyone noticed that those are fully gene-edited jabbed have their "PERSONALITY" changed?

-Among these fully gene-edited jabbed SOME have become INDIFFERENT, AGGRESSIVE, HATEFUL. BRUTAL , CRUEL ..and while SOME others have become SUBMISSIVE, FEARFUL, OBEDIENT... All of which are all the indispensable "qualities" of a perfect order follower!

Since Wuhan, despite the infamous Melbourne "lockdowns", I would still manage to ride my bike to do shopping and have a cup of Machiato almost every morning at the shopping center and chit chat with a bunch of local guys (old and young...most of them have East European background) I do notice this "change."

It's from right out of the horse's mouth: GENE EDITING: It doesn't change what you're doing, it changes YOU...It's you who are CHANGED

<https://www.bitchute.com/video/VjODc6bTsFSW/>

I do suspect that those indifferent brutal and cruel nurses, doctors, and cops are fully gene-edited jabbed!

In one word, these gene-editing jabs have caused these fully gene-edited jabbed DEVOLVE INTO some trans-humanist creatures. IMHO, this " trans-humanist creatures" will be fully developed in three to five year time after 3 shots. And

crucially, all the so-called boosters afterwards will be “upgrading” shots, which will determine and upgrade the “new personality” of the new trans-humanist creatures!

Let’s hope I am wrong! I wish I am wrong!

If I am right, we need pitchfork revolution. That’s the only way out of this!

0% die of Covid – Covid-19 is a disease of attribution to other cause.

Beware the Covid ‘cures’ versus the Covid vaccines. ALL are unnecessary. The tests do not work and set to levels which create 100 false positives. Covid-19 is a disease of attribution to other cause. Gates is funding Ivermectin studies and supports the monoclonal antibodies, the debate is now hijacked into which unnecessary pharmaceutical solutions with harmful drugs is the right solution.

 Reply

**NoThanks**  Oct 1, 2021 6:20 PM

Kit, this has to go *somewhere* in the 30!

The **CDC defines breakthrough** cases as the following:

*For the purpose of this surveillance, a vaccine breakthrough infection is defined as the detection of SARS-CoV-2 RNA or antigen in a respiratory specimen collected from a person  $\geq 14$  days after they have completed all recommended doses of a U.S. Food and Drug Administration (FDA)-authorized COVID-19 vaccine.*

It is vital for everyone to understand the ramifications of this as it pertains to reporting deaths of the vaccinated vs unvaccinated.

If I take one dose of the Pfizer/Moderna jab and die, I’m considered an unvaccinated death. If I take two doses of the Pfizer/Moderna jab and die within the two week period that follows, I’m *still* considered an unvaccinated death. As soon as booster

becomes “recommended,” this can render (by their own definition) all people who are currently considered to be fully vaccinated as unvaccinated again.

It’s beyond absurd to think that someone could put a foreign substance into their body, die immediately, and then be told the reason for death was because they didn’t put that second (or third, etc.) dose of the same foreign substance into their body soon enough.

That isn’t science. It’s clear manipulation of statistics.

□ Reply to *NoThanks*

It should also be mentioned that there is a clear discrepancy between PCR testing of the vaccinated (CT less than 28) and unvaccinated (CT free-for-all, 35 to 45 range is common).

The combination of all of this:

1. A fully vaccinated person who enters a hospital with *any* ailment (such as a vaccine-related injury) is less likely to test positive for COVID-19 because of the lower PCR cycle threshold. If they die with a negative test, they are not counted as a COVID death.
2. A partially vaccinated person who enters a hospital with *any* ailment (such as a vaccine-related injury) will be more likely to test positive for COVID-19 because they are still considered unvaccinated, and are thus subjected to an increased PCR cycle threshold. If they die, they are counted as an unvaccinated COVID death...even though their entire ordeal may have been catalyzed by the vaccine itself.

3. If an unvaccinated person who enters a hospital for *any* ailment whatsoever—which is common, given how dreadfully unhealthy a majority of the US population is, with 2/3 falling into overweight or obese categories and over half being on prescription medications—will be more likely to test positive for COVID-19 because of the elevated PCR cycle threshold. If they die of some entirely unrelated cause, they are still counted as an unvaccinated COVID death. And there is a clear **financial incentive** for this to happen as well.

Fully vaccinated people will be under-reported in COVID death statistics, while partially vaccinated and unvaccinated will both erroneously inflate COVID death statistics.

i would like to see a graphic showing a map of the world with a black dot inserted on each continent for every person currently living ( 7+billion ). Overlay that with a red dot representing each person who has died from/with Covid-19 ( -5 million ). Then create another graphic showing a map of the world with a black dot inserted on each continent representing every person living in 1918 ( around 2 billion ). Overlay that with a red dot representing every person who died from the Spanish flu ( estimates say 35-50 million ).

A visual representation of this kind would make very real for people the tiny fraction of the global population that has died from/with Covid-19. In this case, a picture may be worth several billion words.

Recently I saw a video of a gentleman using pennies dumped on a table in the manner you describe. The visual aid was eye opening and really put it into

perspective. Of course he reduced the population down to a workable percentage equivalence.

 Reply

**Joe**  Sep 30, 2021 4:00 PM

The critical point is missing regarding the patents. COVID/SARS patents go back as far as 1999. The vaccines/shots (basis of which) were patented first. They then patented the virus afterwards. There was no real rush to create a vaccine. It was always about pushing the vaccine. That's why they created it well before 2020. Therefore, Operation Warp Speed was nothing but PR.

It's pretty simple. CDC website sends you to their 3rd party. 3rd party says it takes 10+ days before you get the report. I went directly to NIH and did a keyword search. 100's of scientist from around the world submitted their "Sars-2 RNA Study". They used a dirty sample, usually consisting of SARS and MERS. A mix. They submitted this sample into a computer and cycled it, however many times each scientist felt. Each study ends with computer jargon, letters and numbers, row after row after row.... Each "study" can be seen and read on the website. Now I'm not a scientist. I'm a retired admin assist. My conclusion is, they "isolated the virus" with a COMPUTER THEORY. Their version is nothing more than a "THEORY" produced by a computer and we're suppose to believe they found and isolated the live virus!

Agree – population control. Look up Marek’s disease and leaky vaccines. A mild respiratory virus that only affected very old chickens seriously, with the help of leaky vaccines that allow infection ,replication and transmission, over decades this mild virus mutated, in 100% vaccinated chickens, into a 100% fatal virus that will kill any unvaccinated chicken in days! If they’re able to do that with this mass-vaccination for (their man-made) SARS2, we would all have to be vaccinated or die. Misbehave, no vaccine. Disobey, no vaccine.

 Reply

**todd**  Sep 30, 2021 3:41 PM

Reply to [todd](#)

More benevolent theory – CRISPR gene editing has been allowed to proliferate unchecked, without realizing that viruses are the perfect application and putting the entire world population at risk. How do we protect people – establish annual vaccines and build-up to (in US) 15M doses/day, so if some rogue element releases a deadly synthetic virus we can emergency-vaccinate the entire population. So they engineered

this mild SARS2, released it, and constantly exaggerate its lethality in order to drive everyone to vaccinate. In order to potentially save Billions of people one day.

Wow. This is gold. My web.. <http://www.covid19.net.nz> will post this information shortly.

I believe this has all evolved because Dr Fauci has been interrogated so much that he no longer has a balanced point of view. That the WHO is following his recommendations, and society is the victim of Ego and 'pass the buck' tactics. A sensible solution is needed.

I use the 'What If you are wrong? What is the worst possible outcome?' philosophy when it comes to vaxers without a thought. 'I will get the jab as long as you guarantee you will pay my family if anything happens to me with the mRNA jab.' Technically the jab is not a vaccine at all. It is an experiment that still requires time to prove its effectiveness and outcome. Natural immunity is required or if in doubt, get the jab but don't tell healthy people what they must do when there is no proof

that masks and mRNA injections will work. I have lots of proof that my immune system works long term as I am a survivor of Covid-19 through natural immunity (1 week in rest) . What proof have you got?

Yes, "it" exists. It's called the annual flu. Although "they" call it Covid 19- Sars-2, it's the same Sars they released in 2003 that didn't take off the way they hoped. Weren't you paying attention when the annual flu disappeared? It was replaced with a name change and fearmongering for added affect. They even added the year of it's official debut to the name.

**Dina Kim** □ Sep 29, 2021 1:54 AM □

I'd like to add that there is a push to unnecessarily vaccinate Covid survivors who have developed natural immunity. HERD immunity is a combination of survivors plus the vaccinated. The powers that be pretend that the only people with protection are the vaccinated. The focus shouldn't be on the vaccinated versus the unvaccinated; rather, the focus should be on the immune (T cell ready ) versus the non-immune.

 Reply □

The focus should be on health, period. From an American standpoint...

From the CDC themselves: *“More than 900,000 adult COVID-19 hospitalizations occurred in the United States between the beginning of the pandemic and November 18, 2020. Models estimate that 271,800 (30.2%) of these hospitalizations were attributed to obesity.”*

From Healthline: *“In the United States, **36.5 percent** of adults are obese. Another **32.5 percent** of American adults are overweight. In all, more than two-thirds of adults in the United States are overweight or obese.”*

From Georgetown University: *“More than 131 million people — 66 percent of all adults in the United States — use prescription drugs.”*

Now the “test” that states that someone has “COVID-19” is clearly garbage, but the fact remains that in 2020 (and 2019, and 2018...), long before the vaccinations were released, people were being hospitalized, frequently. Media attributed most of that to one virus to fit a narrative, but instead let’s just call it what it is: we’re a really fucking unhealthy country.

If you believe that *any* virus has been purified, isolated, sequenced, and proven to be the sole cause of a specific disease, you also likely believe that a properly functioning immune system is vital to fight off this virus. The best way to prevent disease in this case is to **take responsibility for your own dietary choices and lifestyle habits** in order to build up your immune response, not outsource this responsibility to government agencies and expect all of your problems will go away with a pill or a jab.

Alternatively, if you believe in terrain theory, then you likely believe that you should **take responsibility for your own dietary choices and lifestyle habits**, avoid all forms of toxic crap that most people put into their bodies, and allows the body’s

natural detoxification methods (urination, defecation, perspiration, exhalation) to not get overwhelmed.

In either case, the focus should be on improving overall health. And that can only happen when we preach *actual* personal responsibility, a practice that involves more than just a few minutes of your day and a rolled-up sleeve.

**claim: The survival rate of "Covid" is over 99%.**

**TRUTH:** One in 500 people in the U.S. has died from COVID. To try to trivialize it and say it's nothing, it doesn't matter, I think it's just a gross mischaracterization of what we are all living through,

Furthermore, vaccinated people are far less likely to become severely ill or die from COVID-19 compared to unvaccinated people. This is an undeniable FACT

Most vaccinated people with breakthrough infections experience mild illness, Dr. William Moss, a vaccine expert at the Johns Hopkins Bloomberg School of Public Health, **told the AP.**

Compared to the average COVID-19 death rate in the U.S., "you look at what the vaccines can do, they decrease the risk of death and severe illness by more than 90 percent, 95 percent in the randomized studies."

Data showed nearly all U.S. deaths from the virus were among people who haven't received the vaccine. About 99.5% of all deaths from COVID-19 are in the

unvaccinated, Centers for Disease Control and Prevention Director Dr. Rochelle Walensky **has said**.

**CLAIM: There has been NO unusual excess mortality.**

**TRUTH:**In an ecological, cross-sectional study, making use of provisional National Center for Health Statistics (NCHS) data on direct COVID-19 and all-cause mortality occurring in US counties from January 1 to December 31, 2020 and reported before March 12, 2021. We used data with a 10-week time lag between the final day that deaths occurred and the last day that deaths could be reported to improve the completeness of data. Our sample included 2,096 counties with 20 or more COVID-19 deaths. The total number of residents living in these counties was 319.1 million. On average, the counties were 18.7% Hispanic, 12.7% non-Hispanic Black, and 59.6% non-Hispanic White. A total of 15.9% of the population was older than 65 years. We first modeled the relationship between 2020 all-cause mortality and COVID-19 mortality across all counties and then produced fully stratified models to explore differences in this relationship among strata of sociodemographic and health factors. Overall, we found that for every 100 deaths assigned to COVID-19, 120 all-cause deaths occurred (95% CI, 116 to 124), implying that 17% (95% CI, 14% to 19%) of excess deaths were ascribed to causes of death other than COVID-19 itself. Our stratified models revealed that the percentage of excess deaths not assigned to COVID-19 was substantially higher among counties with lower median household incomes and less formal education, counties with poorer health and more diabetes, and counties in the South and West. Counties with more non-Hispanic Black residents, who were already at high risk of COVID-19 death based on direct counts, also reported higher percentages of excess deaths not assigned to COVID-19. In this study, we found that direct COVID-19 death counts in the US in 2020 substantially underestimated total excess mortality attributable to COVID-19. Racial and socioeconomic inequities in COVID-19 mortality also increased when excess deaths not assigned to COVID-19 were considered.

**CLAIM:**Covid “vaccines” are totally unprecedented.

**TRUTH:**Myth: **The COVID-19 vaccine was rushed and is too new to know for sure if it's safe** “You're letting yourself be used as a science experiment” is a common retort seen on parenting social media groups when a person shares that

they've been vaccinated.

But according to epidemiologist and Walden University Core Faculty member

**Vasileios Margaritis**, PhD, MS, nothing could be further from the truth.

“Although it seems that COVID-19 vaccines were developed in a record time, this is one of medical research’s greatest achievements,” Margaritis said. “They are the result of an unprecedented international scientific collaboration as well as of an enormous financial and human resources allocation.”

He explained that the technology for these vaccines has actually existed for many years. The vaccine manufacturers were only able to develop these vaccines now because of the hard work that had previously been done.

That, combined with the large amount of funding and effort that went into moving that work forward once a need arose, allowed for these lifesaving vaccines to be developed now.

“All laboratory and clinical trials were conducted in compliance with the most rigorous rules, standards and ethical criteria, without compromising the safety of the participants,” Margaritis said. “The vaccines were approved quickly for emergency use because red tape was cut, not corners.”

SAM's contribution is by the numbers internet disinfo: Make a declaration, then prove the truth of your claim with an article that consists of more declarations, alongside anecdotes and quotes from experts, and hope that no one notices that there isn't anything like research or hard data to be found.

Check out the healthline, mayo clinic, and scientific american links to see how this works. Of these, the Scientific American article is the only one that remotely approximates a cogent, evidence-based argument, but it builds most of its case on death certificates. Given the claim about over-classification, who the fuck is going to be persuaded by this garbage.

This shit exists to give the appearance of debunking, without debunking anything, and gives shitheads like SAM here some links to pass along that he surely knows most people won't even follow, let alone read carefully.

That Sam the Admin thinks this offal proves there is 'no coherent consensus' and merits others pitching in and addressing each link, shows how potent this technique

is. There is nothing in any of the links I reviewed weighty enough to be debunked. I looked at three of them and that was enough wasted time.

There's never a coherent consensus when there is an army of liars pumping out propaganda 24/7.

Disinform harder, you lazy cunt.

I don't think you get it. The word on the street in Minnesota, is that many doctors at Mayo Clinic objected strongly to the treatment protocols they were provided, which largely omitted life-saving anti-oxidants and medicines. The doctors were told to shut up or lose their jobs. So there you go. You tell me. Either this is vast criminal conspiracy, or it is sound medicine. The former appears more in line with all the emerging knowledge.

Sam did not rebut all thirty of the facts that this article addresses. Most significantly, he did not rebut all the data that proves the PCR cannot accurately diagnose what they are calling “covid 19.” In fact it cannot distinguish between covid, flu, bacterial infection or other viruses, as it even states on the FDA package insert. If that is true, then it changes the whole paradigm. Look at how it changes the issues Sam addressed.

The survival rate of covid is over 99%. This number is PCR test dependent.

The overall death rate. This is not PCR test dependent, but since the CDC is unreliable enough to use a worthless test, why do we trust their numbers on this?

Lockdowns don’t work. Hmmm, how do we know they worked or not, except by using the PCR test to know how many cases?

Everything to do with asymptomatic spread. This issue is totally PCR dependent. It was the false positives picked up by the PCR tests that fueled the idea of asymptomatic cases. Usually a “case” is defined by symptoms.

The covid death count is inflated. Hmmm, measuring the numbers of people dying of covid is totally PCR dependent.

Hospitals overwhelmed by covid patients? Again, this measurement is PCR test dependent. By the way, ICU’s are NORMALLY 80-100% full, I know that because I’m an RN, and it’s verified by other nurses I know.

Masks don’t work? I laughed at that video Sam posted because the author created a lot of scientific theater to make the mask issue seem like Einstein’s theory of relativity when all you have to do is realize this too is a PCR dependent question. as well, at least as it relates to covid, but we know that masks don’t work for any viral infections. Refer to original article references.

Flu disappearing? They don't test for the flu. But the PCR test can't distinguish between flu, covid, bacterial infection or other viruses. It merely picks up "viral fragments" and was never meant to diagnose anything. So, hmmm, if the doctors/hospitals get more money for counting whatever it is as covid, they are going to go for the \$, and that's why the flu "disappeared."

As far as the vaccine technology being new or safe. This is not a PCR question, but once again, why would you trust the same people that have forced people to get tested with a false test, and based this whole "casedemic" on it to tell you the truth about an experimental injection that they stand to make billions on? And yes, the CDC gets huge donations from the big pharma companies and Big Tech corporations like Facebook and Google. See CDC Foundation/donors.

It's a simple syllogism: If the PCR test is highly inaccurate, then then all the PCR test dependent numbers are highly inaccurate. I can't see how this is wrong.

I'll take on the "Masks are bad for your health" debunking. It's the low-hanging fruit.

Mayo Clinic Claim #1:

*Simply put, wearing a cloth mask helps decrease the spread of the COVID-19 virus. Research now has shown that a significant number*

*of people with COVID-19 lack symptoms. These people do not know they are transmitting the virus to others when they talk, sneeze, cough or raise their voice (e.g., singing or shouting). Wearing a mask helps to lower the transmission of respiratory droplets to other people around you. You should wear a mask to protect others, and they should wear masks to protect you.*

First of all, “COVID-19” is the name of supposedly infectious disease, not the name of the virus, which is SARS-CoV-2. It’s ridiculous that the Mayo Clinic (and the media, and politicians) gets this wrong.

Their first sentence claims that wearing a cloth mask helps decrease the spread, but cites no data.

Their second sentence has a link to the “research,” but it goes to a CDC page that presents no research. The closest the CDC comes to addressing the topic on this page is saying “*several studies have found that people with COVID-19 who never develop symptoms (asymptomatic) and those who are not yet showing symptoms (pre-symptomatic) can still spread the virus to other people.*” But they don’t link to studies, so I’ll have to do that for them. In December 2020, the Journal of the American Medical Association presented a meta analysis that showed exactly the opposite: asymptomatic transmission is extremely rare. An article explaining this in layman’s terms is [here](#), and unlike the CDC, it actually *does* link to its sources, the JAMA study as well as a WHO study also showing that asymptomatic transmission is almost non-existent.

Their third sentence presents no data to back up their claim.

Their fourth sentence presents no data to back up their claim; although one could assume that that transmission of *large* size droplets are reduced by wearing a mask,

there is no data to show that means anything in terms of transmission of a *disease* itself.

Their last sentence is just a guilt trip without data to back up their claim.

Mayo Clinic Claim #2

*A cloth mask is worn to help protect others in case you have the virus. Countries that required face masks, testing, isolation and social distancing early in the pandemic seem to have had some success slowing the disease's spread. Common sense also suggests that some protection is better than none. Cloth masks reduce the number of respiratory droplets a person releases into the air when talking, sneezing or coughing. The overall number of droplets in the air is reduced when more people wear masks, and this reduces the risk of being exposed to COVID-19.*

First sentence, no data.

Second sentence, they specifically chose the words “*seem to have had some success*” because they have no actual data to back up this claim. Meanwhile, the many studies Kit linked to in this very article show the opposite of Mayo’s claim.

Third sentence cites “common sense” in lieu of data. I would say it’s common sense that air travels through the path of least resistance, which is around the edges of the mask rather than through it, and individual virus particles are far smaller than the weave of a mask anyway. But that’s just proves why you shouldn’t use “common sense” as an argument for busting myths.

Fourth sentence, again no data. If a mask reduces the number of droplets, it’s only the largest sized droplets, which are the ones that would fall immediately out of the air.

Fifth sentence, again no data to support the claim that the overall number of droplets “in the air” (regardless of size) is A) reduced when people wear masks, and B) that this somehow factors into the risk of being exposed to a virus which they again incorrectly call COVID-19 instead of SARS-CoV-2.

### Mayo Clinic Claim #3

*For many years, health care providers have worn masks for extended periods of time with no adverse health reactions. The CDC recommends wearing cloth masks while in public, and this option is very breathable. There is no risk of hypoxia, which is lower oxygen levels, in healthy adults. Carbon dioxide will freely diffuse through your mask as you breathe.*

*If you feel uncomfortable in your mask, try to limit your talking and breathe through your nose. That will reduce the humidity level in your mask.*

Goodness.

First sentence is stating that health care providers have worn masks for undisclosed intervals in their careers, and somehow that is supposed to assure that wearing them nonstop all day everyday (for all people, of all ages of development) is perfectly healthy? It also makes a bold claim that there have been “no adverse health reactions,” as if we have any documentation of that.

The second sentence is an appeal to the authority of the CDC without any data, and a subjective opinion that a cloth mask is “very breathable.” I disagree entirely.

The third and fourth sentence state “no” risk, as in zero risk of hypoxia, another bold claim without data. I would cite not only common sense, but a number of tests with

oxygen and CO2 sensors revealing contradictions to this data-less claim.

The fifth and sixth sentences are simply condescending drivel.

Mayo Clinic Claim #4

*Wearing a mask is one step in slowing the spread of COVID-19. In addition to wearing a mask, everyone should continue to practice recommended behaviors to such as:*

- Keep your physical distance: 6 feet or about two arms' lengths apart from other people.
- Limit in-person meetings.
- Wash your hands often with soap.
- Stay home if you do not feel well.
- Get a test if you have **COVID-19 symptoms**. Call your local health care provider to schedule a test.
- Self-isolate if you have been around someone who is sick or tested positive.

First sentence has no data to back up the claim. Second sentence leads to more unscientific claims.

First bullet: Keep your 6 feet of distance, which was a completely arbitrary number until later someone said it was only 3 feet needed. None of it is backed by science.

Second bullet: Unless we go down the germ theory/terrain theory path here, we can let this one pass. Toxins are a thing too, so washing hands is probably good in one way or another.

Third bullet: The least controversial claim possible. Rest if you're sick.

Fourth bullet: They're telling you to get a test which tries to detect non-specific sequences of genetic material that are found in many things, originally based on the Sars-CoV-1 genome because a Sars-Cov-2 was not available (Corman-Drosten paper), which is the basis for ongoing lawsuits—a fact that would be known by everyone if we had mainstream news organizations that *actually reported the news*. This PCR test is run at arbitrary cycle thresholds in various locations; it can't exceed 28 if you've been vaccinated but can be as high as 45 if you're unvaccinated because data consistency doesn't matter to the keepers of "the science" at the CDC. The illegitimacy of PCR data renders **ALL COVID-19 DATA USELESS**. We do not know if someone died of COVID-19, with COVID-19, if they had COVID-19 at all, and ultimately if a unique new disease called COVID-19 actually exists if the testing for the SARS-CoV-2 virus that purportedly *causes* COVID-19 is fraudulent. Must we re-read **this article** daily to remind ourselves? We keep falling into the same trap of debating data that we know can't possibly exist.

Fifth bullet: If someone you know tested positive and had no symptoms, and you also don't have symptoms, live your damn life. Asymptomatic spreading is either barely a thing or not a thing at all, according to *actual* data.

SAM, you chose to ignore all of Kit's referenced data on masks, and instead "debunked" the claim that "masks are bad for your health" with a myth-busting article from the Mayo Clinic, which somehow managed to present NO actual data whatsoever.

The New Nuremberg Trials -<https://banned.video/watch?id=60bfa39e05e4f2716bb9984b>

A team of over 1,000 lawyers and over 10,000 medical experts led by Dr. Reiner Fuellmich have begun legal proceedings against the CDC, WHO & the Davos Group for crimes against humanity. Fuellmich and his team present the faulty PCR test and the order for doctors to label any comorbidity death as a Covid death as fraud. The PCR test was never designed to detect pathogens and is 100% faulty at 35 cycles. All the PCR tests overseen by the CDC are set at 37 to 45 cycles. The CDC admits that any tests over 28 cycles are not admissible for a positive reliable result. This alone invalidates over 90% of the alleged covid cases / "infections" tracked by the use of this faulty test.

In addition to the flawed tests and fraudulent death certificates, the "experimental" vaccine itself is in violation of Article 32 of the Geneva Convention. Under Article 32 of the 1949 Geneva Convention IV, "mutilation and medical or scientific experiments not necessitated by the medical treatment of a protected person" are prohibited. According to Article 147, conducting biological experiments on protected persons is a grave breach of the Convention.

We are all born ignorant, but you must work incredibly hard every day at staying totally stupid. We love watching angry little shrills like you, flail your arms and scream at a high pitch at those who know you are full of BS. Go sell your Branch Covidian religion to the ignorant masses. I had Covid, and now have natural

immunity for 19 months now, as I watch frightened sheep like friends who are vaccinated come down with Covid. So you are pretty much a fake news liar. Get outta here, Fauci's street stooge. This isn't the 1930s, too bad you missed it, you would have made a perfect goosestepping German. Now, go line up for your 9th booster shot, they work so well.

Sam tried to debunk but fell flat. Use of words like “proven, repeatable and undeniable” and then quoting sites like CNN as proof? **Seriously?**

And Reuters, Politifact etc? Why not add Snopes to that sad list of fake sources? These are perfect examples of propaganda. There's no real research nor hard data to be found on any of them.

Maybe Sam actually believes such baloney, or maybe Sam has ulterior motives? Often those who do such are being PAID to for their attempts to debunk. Sam sure invested some time here, and that appears suspicious.

Science has been bought and sold. This is something that has been weaponized for political reasons. Fear driven by propaganda is their army to keep the clueless under

their control. If this was a serious pandemic there would be more dead bodies than they could deal with. The main thing no one can answer is, if this is so serious and they are so concerned about us, WHY would they allow thousands and thousands of illegals and refugees in, dispersing them among us, all over the country!

 Reply

**Nice sources**  Sep 30, 2021 2:17 PM

|  Reply to **SAM**

So your sources are CNN, reuters and politifact and they are clearly showing “the truth”. Jesus christ, you are beyond saving.

The big difference between you people and us is that we are for liberty and freedom. You want your first and second shot? Sure. You want your booster and your second booster shot? By all means, go ahead. You want to wear your mask alone in the car? Looking good there. You want to take your 2 Pfizer pills per day? Enjoy you dessert. I have absolutely no problem with what you do to your body. The difference is that you would want ME to get the gene therapy, wear the mask, get tested and much worse in the future. Live and let live is not a thing for indoctrinated cultists like you.

LMAO at a troll using Politifact as a reference. Poynter created Politifact then essentially certified itself as ‘trustworthy’ and ‘impartial’.

 Reply

**Lily Ole**  Oct 1, 2021 3:59 AM

|  Reply to **SAM**

Quoted from PolitiFact's own website <https://www.politifact.com/who-pays-for-politifact/> — “In 2018, PolitiFact was acquired by the Poynter Institute.” From news provided by The Poynter Institute in 2017: “\$1.3 Million in Grants from Omidyar Network, Open Society Foundations Will Expand Poynter’s International Fact-Checking Network”: <https://www.prnewswire.com/news-releases/13-million-in-grants-from-omidyar-network-open-society-foundations-will-expand-poynters-international-fact-checking-network-300481553.html>

What George Soros does is personally fund his Open Society Foundations, and then those nonprofits will fund other nonprofits, who in turn then fund other nonprofits, until Soros’s money trickles down to the groups doing the dirty work, so that his “influence” is not evident at first glance, and so that scummy “fact-checkers” can deceptively say that “Soros didn’t [personally] fund that”. Here’s an important expose of how all of these new “fact checker” sites are connected to the corrupt CIA network of “New Left” foundations. Simply search for the word “Poynter,” and you’ll get an education (assuming you care about that):

 Reply

**Wendy**  Sep 28, 2021 11:53 PM

Many thanks for a heroic effort at parsing important facts and figures on the agenda, Kit. I hope this crib sheet keeps getting better:) Two improvements to recommend, if I may:

1) I wish the first video could have been one of Dr. Michael Yeadon (or somebody else of a similar moral and intellectual stature) instead of the murderous, Gates-funded Chris Whitty. Whitty has done a complete U-turn since this video was put out; he is now pushing for the UK to start injecting the deadly gene therapies into 12-15 year olds.

2) We need to tackle the point many of the brainwashed raise: millions are dying of covid! It's killing people!! How can you say covid isn't real!? Etc. (Sam, below, is typical of such people).

The answer is nuanced: what the WHO, the media and government health officials have been calling the 'Sars Cov2 virus' simply does not exist, medically or empirically. The WHO and CDC have admitted as much when scientists demanded to see a sample of it. There IS NO proof that it exists because it has never been isolated or purified in a lab. The whole Wuhan lab leak story is a distraction.

What is this 'virus', then? It is a chimeric, engineered code made up of Sars Cov 1, animal viruses and HIV. It appears as a computer code on a database. That's it. All the 'variants' we are constantly bombarded with are pure lies, made up to...you guessed it...make us take the 'vaccines'.

So, what did people die of in 2020? The seasonal flu A+B, aggravated by EMF caused by 5G frequencies. As 5G towers were rapidly 'activated' during the global

lockdowns, some people experienced vascular and pulmonary effects. Others simply died of the usual comorbidities associated with age, obesity and malnutrition. Still others died from accidental causes.

We now know that nearly all of these deaths were re-designated as ‘covid deaths’. Case numbers were pumped up relentlessly using a fake test. Stupid, stupid rules and ‘mandates’ which millions of brain-dead people obeyed without question. And now, nearly 2 billion human beings have been jabbed with a bioweapon which is already the most deadly in history. And these same people are still wearing masks indoors AND outdoors!

How has all this happened? Because people have been hypnotized by fear, blindly trusted authority and been unwilling to do their own research. The ‘covid era’ is a global tragedy of unspeakable proportions. And a spiritual war we humans must – and will – win.

**Reel Live** □ Sep 28, 2021 10:40 PM □

It’s a good collection of information. What’s missing is how we got into this in the first place. Because it did not happen overnight. And it’s not simply because a bunch of wealthy psychopaths are in control. It goes much further — much deeper. It’s much more tangible for nearly everyone — study “The 2 Married Pink Elephants In The Historical Room” at <https://www.rolf-hefti.com/covid-19-coronavirus.html>

Without the proper understanding, and whole acknowledgment, of the true WHOLE problem and reality, no real constructive LASTING change is possible.

All these evil scientism morons have done is take Flu data from column F and move it to Column C and call it Convid-1984.

Every flu season the USA alone had ~65 million “cases”, ~25 million hospital visits, and ~500k deaths, ANNUALLY.

Not once did we stop the world and lock down over the flu for over 100 years.

Now we are supposed to believe that a “virus” with a mortality rate less than half a percent for anyone aged 70 or less, with one comorbidity or less, is the most deadly ever.

That anyone is so ignorant that they cannot see that this entire PLANNEDemic is a political effort to destroy our cultures and economic opportunity is sad as F.

WAKE THE F UP.

I think you will see, if you read the article objectively, this article is not refuting the science. Instead, it is using documented science to show the faults of how the situation is being handled. Instead of screaming and yelling your opinion perhaps you can, as Sam already requested, refute some of the article’s points with some science?

I honestly am interested in seeing scientific papers that present your viewpoint. I have requested the same before from others that scream your perspective but each and every time I only receive abuse and never once science.

Thank you.

When most loved ones die, the institutional hospital and institutional doctors deny science and tell the family that COVID killed the loved one. That how you build fear and sell vaccines. Science tells us that most people don't die OF COVID, they die WITH COVID. Even the CDC backs this up when their website says 94% of deaths listed as COVID are people who died of other causes but hospitals were told to list the death as COVID. That's not science, that's politics.

My wife works intake at our small town hospital. We have no data to back our claim, and can only hope it's mention will invite further research. The absolute vast majority

of patients admitted to our emergency room have received at least one dose of Pfizer or Moderna. The vast majority of cases are not logged as COVID-19 at our hospital, these patients come in presenting issues with the heart, clotting, stroke, blood pressure, neurological problems, numbness, and shortness of breath. Emergency staff treats these issues as such and reports them as such. It occurs some time after initial diagnosis that these people have COVID-19 not based on PCR testing but based on a checklist of symptoms, all of which we believe to be adverse reaction. The regional facility doesn't care about positive tests, only that the symptoms align. Add this to the CDC stating publicly that you are considered unvaccinated until 2 weeks after your second jab and the big picture becomes clear. These shots are decimating our elderly population and creating abnormal spikes in younger populations, then being blamed on the unvaccinated. Our children are now reported as having COVID (as a precaution) for any truancy from school, and the students are now pool tested (what a joke) to falsely pump numbers in children. This whole thing is a murderous conspiracy in the most obvious fashion and I wish people would listen long enough to realize it. My wife is days away from being replaced by a National Guard member, when she was Frontline this entire time. You do not fire health workers amidst a real pandemic, you do this to intimidate, crush dissent, and normalize military presence among the community. We are amidst a communist takeover of this country, I fear we have already lost and like a supernova we are just now seeing the explosions.

I have talked to people, like you suggested. A friend's mother was sedated and intubated AGAINST her will in April of 2020 because of covid. She didn't need intubation but wasn't as compliant as they wanted, so they forcefully intubated her. She started to die. Fortunately, her son in law is a cardiologist and as such had access to her in the hospital. After his wife's pleas he "under the table" administered her over 15 grams of vitamin C IV. She recovered and was taken off the ventilator the next day. They went with this story to a radio show. They also saved another person through hospital connections because they were being killed by lack of proper care. Another friend's daughter was a nurse and was literally fighting with other personnel that was trying to put ALL on ventilators. Please WAKE UP. It's sickening what's going on and how you guys have been fooled.

<https://c19early.com/>

 Reply

**James**  Sep 28, 2021 4:16 PM

|  Reply to *jef*

While perhaps c19early may push early treatments I would also like to point out (from the top of their homepage), they also seem to push vaccines as “effective”. . .

“COVID-19 early treatment analysis. Treatments do not replace vaccines and other measures. All practical, effective, and safe means should be used. Elimination is a race against viral evolution. No treatment, vaccine, or intervention is 100% available and effective for all variants. Denying efficacy increases the risk of COVID-19 becoming endemic; and increases mortality, morbidity, and collateral damage.”

Do your own research and come to an objective decision for your particular situation.

Reply

**James**  Sep 28, 2021 5:44 PM

Reply to *James*

I would like to add that there is, *coincidentally*, another “Covid-19 Early Treatment Fund (CETF)” that is apparently *not affiliated* with the link that was posted but carries the same name minus the “Fund” part and “is administered by Rockefeller Philanthropy Advisors”

**<https://www.treatearly.org>**

Do we still today trust the Rockefeller Foundation?

Do your research and come to your own conclusions.

Thanks.

Reply

**James**  Sep 28, 2021 6:03 PM

Reply to *James*

To note. The link @jef posted is represented on Twitter as @covidanalysis and has had it's account suspended...

<https://mobile.twitter.com/CovidAnalysis>

More mystery to this case. Could it be perhaps because they show studies on Ivermectin, or vitamins? I don't know. Perhaps, CETF didnt like that?

In my opinion, based upon my own research, I have a hard time these days to trust any pharmaceuticals.

We should instead, in my opinion be focusing on holistic remedies as of which I am still studying. I currently feel there may be some kind of balance between all three of holistic, homeopathic and allopathic.

 Reply

**Thomas Eck**  Sep 28, 2021 12:11 PM

What about patents for the treatment of Covid?Who owns them?

What kind of compensation is being or will be received.

Was the virus itself patented?

Why did the U S. / Fauci send money to a Wuhan lab OWNED BY THE CHINESE MILITARY??

 Reply

**John Vaughan**  Sep 28, 2021 11:27 AM

Fantastic effort, thanks. I think the biggest issue missed is the way that the 'narrative', symbolised by the mask, is creating a climate and culture of fear in all children worldwide.

 Reply

\*\*\*

*“Have you seen the document dump on the Pfizer vaccine data? It’s a bombshell. No wonder the FDA fought to keep it hidden for 55 years.*

**Here is the quick takeaway:**

*By February of 2021, Pfizer had already received more than 1,200 reports of deaths allegedly caused by the vaccine and tens of thousands of reported adverse events, including 23 cases of spontaneous abortions out of 270 pregnancies and more than 2,000 reports of cardiac disorders.*

Bear in mind, this is Pfizer’s own data.” **Election Wizard**

Our thanks to Election Wizard for bringing this report to our attention.

\*\*\*

*This Confidential Pfizer Report released as part of a Freedom of Information (FOI) procedure provides data on deaths and adverse*

events recorded by Pfizer from the outset of the vaccine project in December 2020 to the end of February 2021, namely a **very short period (at most two and a half months)**.

The Pfizer BioNTech vaccine was launched in the US [on the 14th of December after the granting of Emergency Use Authorization on December 11, 2020.](#)

In a twisted irony, the data revealed in this “insider report” refutes the official vaccine narrative peddled by the governments and the WHO. It also confirms the analysis of numerous medical doctors and scientists who have revealed the devastating consequences of the mRNA “vaccine”.

What is contained in Pfizer’s “confidential” report is detailed evidence on the impacts of the “vaccine” on mortality and morbidity. This data which emanates from the “Horse’s Mouth” **can now be used to confront as well formulate legal procedures against Big Pharma, the governments, the WHO and the media.**

**In a Court of Law, the evidence contained in this Big Pharma confidential report** (coupled with the data on deaths and adverse events compiled by the national authorities in the EU, UK and US) is **irrefutable**: because it is their data and their estimates and not ours.

Bear in mind: it’s data which is based on reported and recorded cases, which constitute a small percentage of the actual number of vaccine related deaths and adverse events.

**This is a de facto Mea Culpa on the part of Pfizer. #Yes it is a Killer Vaccine**

And it is also a Mea Culpa on the part of the national governments Worldwide which are being threatened or bribed by Big Pharma.

“Killing is Good for Business”: It is a multibillion dollar operation worldwide. And Pfizer already has a [criminal record \(2009\) with the US Department of Justice on charges of “fraudulent marketing”](#).

We invite the “**Covid-19 Fact Checkers**” to peruse this Confidential Pfizer report.

(Oops. It just so happens that Reuters “Fact Checker” chairman and former Chief Executive Officer (CEO) James C. Smith “is also a top [investor](#) and [board member](#) of Pfizer”. “No Conflict of Interest”).

Selected excerpts, tables and diagram from the Report below

**Michel Chossudovsky**. Global Research, December 5, 2021

BNT162b2

5.3.6 Cumulative Analysis of Post-authorization Adverse Event Reports

---

#### 5.3.6 CUMULATIVE ANALYSIS OF POST-AUTHORIZATION ADVERSE EVENT REPORTS OF PF-07302048 (BNT162B2) RECEIVED THROUGH 28-FEB-2021

##### Selected Excerpts of the Report

This document provides an integrated analysis of the cumulative post-authorization safety data, including U.S. and foreign post-authorization adverse event reports received through 28 February 2021.

(...)

Pfizer is responsible for the management post-authorization safety data on behalf of the MAH BioNTech according to the Pharmacovigilance Agreement in place. Data from BioNTech are included in the report when applicable.

Reports are submitted voluntarily, and the magnitude of underreporting is unknown.

(...)

Cumulatively, **through 28 February 2021 [in less than three months], there was a total of 42,086 case reports (25,379 medically confirmed and 16,707 non-medically confirmed) containing 158,893 events.** Most cases (34,762) were received from United States (13,739), United Kingdom (13,404) Italy (2,578), Germany (1913), France (1506), Portugal (866) and Spain (756); the remaining 7,324 were distributed among 56 other countries.

(...)

As shown in Figure 1 [see below], the System Organ Classes (SOCs) that contained the greatest number ( $\geq 2\%$ ) of events, in the overall dataset, were General disorders and administration site conditions **(51,335 AEs), Nervous system disorders (25,957), Musculoskeletal and connective tissue disorders (17,283), Gastrointestinal disorders (14,096), Skin and subcutaneous tissue disorders (8,476), Respiratory, thoracic and mediastinal disorders (8,848), Infections and infestations (4,610), Injury, poisoning and procedural complications (5,590), and Investigations (3,693**  
emphasis added

**Figure 1. Total Number of BNT162b2 AEs by System Organ Classes and Event Seriousness**

**Table 1. General Overview: Selected Characteristics of All Cases Received During the Reporting Interval**

	Characteristics	Relevant cases (N=42086)
Gender:	Female	29914

# Fwd: How to Break Free of Fear Addiction

----- Forwarded message -----

From: **Jonathan Mark** <[flybynews.com@gmail.com](mailto:flybynews.com@gmail.com)>

Date: Sun, Jan 2, 2022 at 4:58 AM

Subject: How to Break Free of Fear Addiction

To: Flyby News <[noflyby@yahoo.com](mailto:noflyby@yahoo.com)>

[Flyby News](#) (FN)

02 January, 2021

Jonathan Mark

Dear friends,

The top 2022 link under updated news and events at FN is [how to break free of fear addiction](#). It has another brilliant interview by Dr. Mercola, this time with psychologist Dr. Mark McDonalds. Mercola describes the interview as to how to 'Snap' *Loved Ones Out of COVID Brainwashing Government, corporations and powerful individuals have used systematic 'grooming' toward irrational fear for decades - and they're using it to rob us of our freedoms. So how do you help your brainwashed friends and family see clearly, when they're essentially in a cult?* This description piqued my

curiosity and hope for answers. I think it may happen this year in a big way and Plandemic 3 this spring will be a force for transformation.

02 January, 2021 - Flyby News - Dr. Mercola

## [How to Break Free of Fear Addiction](#)

Under the analysis in the Mercola article are more links for resources on this topic and information from *John Coster* about Vaccine Adverse Events Reporting System and its analysis by Steve Kirsch with the same intent to help wake people up. This following paragraph was in the email by John.

*I understand that many people are reluctant to scare their loved ones but since the worst effects of the jab appear cumulative, stopping them from lining up for boosters could be critical. It's also coming out that some batches were comparatively benign and others very dangerous. The whole planet earth is now a crime scene but momentum is building to put an end to this horror. The link to Steve Kirsch is one of the best sources of good data. He was a multimillionaire benefactor to progressive Democratic causes until the party went over to the dark side along with most Republicans. Now he is using his resources to fund science and combat the censorship of medical experts. The shock of so much damage is waking up many who have fallen into the mass hypnosis as Mathias Desmet and other psychologists have suggested might happen but only with continued efforts on all our parts.*

The time to break free from fear to unite in freedom and truth is at a critical point. This is going to be one big transformative new year.

Thank Goodness!

<https://www.globalresearch.ca/57-top-scientists-doctors-release-shocking-study-covid-vaccines-demand-immediate-stop-all-vaccinations/5746848>

## 57 Top Scientists and Doctors Release Shocking Study on COVID Vaccines and Demand Immediate Stop to All Vaccinations

### **Abstract**

Since the start of the COVID-19 outbreak, the race for testing new platforms designed to confer immunity against SARS-CoV-2, has been rampant and unprecedented, leading to emergency authorization of various vaccines. Despite progress on early multidrug therapy for COVID-19 patients, the current mandate is to immunize the world population as quickly as possible. The lack of thorough testing in animals prior to clinical trials, and authorization based on safety data generated during trials that lasted less than 3.5 months, raise questions regarding the safety of these vaccines. The recently identified role of SARS-CoV-2 glycoprotein Spike for inducing endothelial damage characteristic of COVID-19, even in absence of infection, is extremely relevant given that most of the authorized vaccines induce the production of Spike glycoprotein in the recipients. Given the high rate of occurrence of adverse effects, and the wide range of types of adverse effects that have been reported to date, as well as the potential for vaccine-driven disease enhancement, Th2-immunopathology, autoimmunity, and immune evasion, there is a need for a better

understanding of the benefits and risks of mass vaccination, particularly in the groups that were excluded in the clinical trials. Despite calls for caution, the risks of SARS-CoV-2 vaccination have been minimized or ignored by health organizations and government authorities. We appeal to the need for a pluralistic dialogue in the context of health policies, emphasizing critical questions that require urgent answers if we wish to avoid a global erosion of public confidence in science and public health.

## **Fwd: new article**

----- Forwarded message -----

From: **Daniel Broudy** <[meta.being@gmail.com](mailto:meta.being@gmail.com)>

Date: Mon, Dec 13, 2021 at 3:30 PM

Subject: new article

To: <[PROPAGANDAWARONTERRORE@jiscmail.ac.uk](mailto:PROPAGANDAWARONTERRORE@jiscmail.ac.uk)>

Dear Friends/Colleagues,

Just sharing a new piece I did with a brilliant researcher in an area that connects at many points with my own. We've since collaborated on others,

too, looking at various aspects of the state-corporate Corona narrative. Pasted below is the abstract, which might entice you to read the new article. What we found surprised even us. You can access the article here.

> <https://ijvtpr.com/index.php/IJVTPR/article/view/32>

Incontrovertible evidence has now made clear that much of what has been perceived publicly about the story of SARS-CoV-2 and the pharmaceutical remedies offered (then mandated) was/is part of a sophisticated international fabrication of unprecedented proportion, depth, and deception. The origins of the virus, the approved testing regime, the flawed predictive models of spread and mortality, associated social-distancing mandates, and so-called vaccines and their claimed efficacy and safety, all point to a coordinated effort to manufacture public fear and hysteria so as to propagate and normalize transhumanist interventions in healthcare and human biology. This article begins with the simple question of how adjuvants in traditional vaccines are theorized to work and proceeds to analyze how the new injectable mRNA platforms deploy nanomaterials as delivery vehicles for genetic interventions with a range of other potential actions inside the human body, both intended and unintended. The authors draw upon the chronological and logical development of adjuvants and their use across disciplines in materials science, genetic engineering, and programming. The authors aim to disentangle the known, unknown, possible and likely contents and objectives of COVID-19 injections, in the context of the surrounding corporate, political, and ideological landscape. They conclude that the social disruptions created by COVID-19 have served as a means of instigating rapid transition to what unelected policy-makers have called a Bio-Nano Age.

Rich blessings, dan(iel)

## **Fwd: The most comprehensive and insightful lecture on everything COVID- 19**

----- Forwarded message -----

From: **Bret Hughes** <[sicjedi@gmail.com](mailto:sicjedi@gmail.com)>

Date: Sat, Dec 18, 2021 at 1:57 PM

Subject: The most comprehensive and insightful lecture on everything COVID-19

To:

This is one of the very smartest people that I have ever listened to, for everything COVID-19:

Dr. Shankara Chetty (December 10, 2021)

<https://odysee.com/@Corona-Investigative-Committee:5/Dr-Shankara-Chetty-session-82-en:5>

[YouTube alternative link: <https://www.youtube.com/watch?v=0tgvE6fuWXY>]

Odysee includes a download link for the video in the "..." menu, which is below the video just to the right of the "Share" menu.

Bret

PS: More information for those who are interested, below...

Interesting study that came out about a month and a half ago in The Lancet:

[https://www.thelancet.com/journals/laninf/article/PIIS1473-3099\(21\)00648-4/fulltext](https://www.thelancet.com/journals/laninf/article/PIIS1473-3099(21)00648-4/fulltext)

From the Interpretation section: "Vaccination reduces the risk of delta variant infection and accelerates viral clearance. Nonetheless, fully vaccinated individuals with breakthrough infections have peak viral load similar to unvaccinated cases and can efficiently transmit infection in household settings, including to fully vaccinated contacts. Host–virus interactions early in infection may shape the entire viral trajectory."

From the findings...

"12 (39%) of 31 infections in fully vaccinated household contacts arose from fully vaccinated epidemiologically linked index cases..."

My take: Besides for self protection, when a person takes a COVID vaccine, it appears to protect others from getting COVID-19 somewhat, but not that much.

So why all this hyper-focus on getting everyone to take the vaccine, which is significantly dangerous? Especially, when there are safe treatments for COVID that protect people from hospitalization and death by about 85%. Why all the force employed by governments to shut down small businesses and to destroy personal freedoms?

For an entertaining and educational discussion about all this, check out the following.  
<https://brighteon.com/ccb45e98-197e-4ee6-8b80-9f3068da620a>

PSPS: And there's even more, for those who are interested...

Professor Matthias Desmet, Ph.D., from Ghent University, Belgium, gave a breakthrough interview on the Pandemic Podcast with award-winning journalist Dan Astin-Gregory in September 2021. **Dr. Matthias Desmet** explains that a global “group think” driven by fear, and intense, insecure deference to authority has allowed the COVID-19 pandemic to worsen fueled by isolation, lockdowns, and indiscriminate vaccination.

Free-floating anxiety and its resultant psychosis has blinded the masses from critical thinking, independent decision making, and has allowed the loss of autonomy and human rights across the globe.

## **Fwd: The most comprehensive and insightful lecture on everything COVID-19**

----- Forwarded message -----

From: **Bret Hughes** <[sicjedi@gmail.com](mailto:sicjedi@gmail.com)>

Date: Sat, Dec 18, 2021 at 1:57 PM

Subject: The most comprehensive and insightful lecture on everything COVID-19

To:

This is one of the very smartest people that I have ever listened to, for everything COVID-19:

Dr. Shankara Chetty (December 10, 2021)

<https://odysee.com/@Corona-Investigative-Committee:5/Dr-Shankara-Chetty-session-82-en:5>

[YouTube alternative link: <https://www.youtube.com/watch?v=0tgyE6fuWXY>]

Odysee includes a download link for the video in the "... " menu, which is below the video just to the right of the "Share" menu.

Bret

PS: More information for those who are interested, below...

Interesting study that came out about a month and a half ago in The Lancet:

[https://www.thelancet.com/journals/laninf/article/PIIS1473-3099\(21\)00648-4/fulltext](https://www.thelancet.com/journals/laninf/article/PIIS1473-3099(21)00648-4/fulltext)

From the Interpretation section: "Vaccination reduces the risk of delta variant infection and accelerates viral clearance. Nonetheless, fully vaccinated individuals with breakthrough infections have peak viral load similar to unvaccinated cases and can efficiently transmit infection in household settings, including to fully vaccinated contacts. Host–virus interactions early in infection may shape the entire viral trajectory."

From the findings...

"12 (39%) of 31 infections in fully vaccinated household contacts arose from fully vaccinated epidemiologically linked index cases..."

My take: Besides for self protection, when a person takes a COVID vaccine, it appears to protect others from getting COVID-19 somewhat, but not that much.

So why all this hyper-focus on getting everyone to take the vaccine, which is significantly dangerous? Especially, when there are safe treatments for COVID that protect people from hospitalization and death by about 85%. Why all the force employed by governments to shut down small businesses and to destroy personal freedoms?

For an entertaining and educational discussion about all this, check out the following.

<https://brighteon.com/ccb45e98-197e-4ee6-8b80-9f3068da620a>

Subject: The pharmaceutical industry provides 75% of television advertising revenue:THEY OWN THE TV NARRATIVE

To: [billhornmusic@protonmail.com](mailto:billhornmusic@protonmail.com) <[billhornmusic@protonmail.com](mailto:billhornmusic@protonmail.com)>

<https://www.wanttoknow.info/h/coronavirus/covid-deception-fauci-gates-biosecurity-state>

Here's the added introduction:

# COVID Deception

## Fauci, Gates, and the Biosecurity State

**"The pharmaceutical industry provides 75% of television advertising revenue, meaning pharma literally pays large parts of the salaries of the anchors and everyone else on set."**

**"In [the] 2010 Rockefeller-funded 'Lock Step' simulation, a novel strain of influenza leads world leaders to impose mandatory masks and temperature checks. Then this chilling paragraph: 'Even after the pandemic faded, this more authoritarian control and oversight of citizens and their activities stuck and even intensified. In order to protect themselves from the spread of increasingly global problems—from pandemics and transnational terrorism to environmental crises and rising poverty—leaders around the world took a firmer grip on power.'"**

Dear friends,

I'm sure many, like me, would love to read Robert F. Kennedy, Jr.'s best seller [\*The Real Anthony Fauci\*](#) (rated 4.9 stars on amazon), but don't have time to plow through all 480 pages. I was most grateful to find a very good summary, which I've copied below, preceded by the publisher's synopsis and a few words of praise from prominent individuals.

Please help to spread the word on this important information which could play a significant role in changing the disturbing course we find ourselves on.

With best wishes for a transformed world,

[Fred Burks](#) for [PEERS](#) and [WantToKnow.info](#)

Former [White House interpreter](#) and [whistleblower](#)

Read the complete summary here:

<https://www.wanttoknow.info/h/coronavirus/covid-deception-fauci-gates-biosecurity-state>

Another great new book on this subject, ***Pandemia*** by Alex Berenson (an ex-NYT reporter), has reached #1 in various categories.

You can listen to an introduction here:

[https://www.amazon.com/Pandemia-Coronavirus-Hysteria-Government-Rights/dp/1684512484/ref=tmm\\_hrd\\_swatch\\_0?\\_encoding=UTF8&qid=&sr=8-1](https://www.amazon.com/Pandemia-Coronavirus-Hysteria-Government-Rights/dp/1684512484/ref=tmm_hrd_swatch_0?_encoding=UTF8&qid=&sr=8-1)

18 December, 2021

Jonathan Mark

Dear good people,

This [13-minute YouTube video with Robert Malone](#) is truly worth the effort to share with families and friends during this holiday winter solstice season. It is gentle, simple, and profound. It offers hope to support many hypnotized to awaken, or crack the media-enforced damage to our psyche. Dr. Mercola analyzed this video and shared others regarding the work of psychologist Mattias Desmet. Dr. Malone has a way of being incredibly intelligent and personable. Check it out.. please.. and thank you for anyone contacting their state's Attorney General that we, the people, elected to look into this critical issue as deception and criminality now must be confronted and challenged. Thank You. Please stay well, and keep what is hopeful and true to our true being, with love..

## ~PLEDGE~

As the representative of \_\_\_\_\_  
in \_\_\_\_\_, Idaho, I pledge to honor the privacy and  
self-determination of my customers as it relates to medical decision making.

Therefore, I will **not** put myself or my employees in the position of enforcing any COVID-related behavior that is recommended or mandated for my customers by a local public health district or any other governmental body. Such behaviors might include the wearing of a mask/facial covering; social distancing; or showing proof of various medical tests, procedures, or vaccinations. A customer who chooses **not** to engage in such actions will never be denied entry into this business, denied service, or otherwise harassed or penalized while visiting.

I trust in my customers' ability to make their own autonomous choices.\*  
These choices are very personal and are often based in deeply held convictions  
and/or religious beliefs.

\*While I support freedom of choice, I do reserve the right to ask any customer who is wearing a mask/facial covering to remove it for identification or security purposes.

Signed this \_\_\_\_\_ day of \_\_\_\_\_ 2021,
